Important notice:

This document may contain forward-looking statements. By their nature, forward-looking statements involve risk and uncertainty because they relate to future events and circumstances that may be beyond the Storebrand Group's control. As a result, the Storebrand Group's actual future financial condition, performance and results may differ materially from the plans, goals and expectations set forth in these forward-looking statements. Important factors that may cause such a difference for the Storebrand Group include, but are not limited to: (i) the macroeconomic development, (ii) change in the competitive climate, (iii) change in the regulatory environment and other government actions and (iv) market related risks such as changes in equity markets, interest rates and exchange rates, and the performance of financial markets generally. The Storebrand Group assumes no responsibility to update any of the forward-looking statements contained in this document or any other forward-looking statements it may make.

Overview

Storebrand is the leading provider of life insurance and pensions in the Nordic region. The group is made up of four business areas: Life and pensions, asset management, P&C insurance and banking. Storebrand offers a comprehensive range of products to retail customers, corporate customers, municipalities, and the public sector.

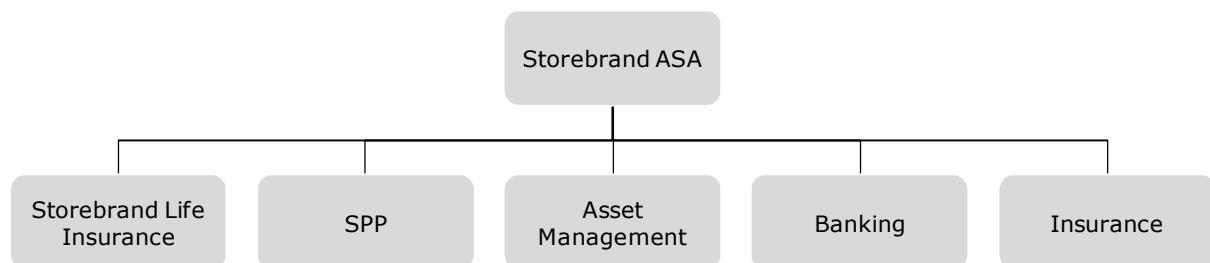

Storebrand's objective is to be the leading institution in the Nordic market for long-term savings and insurance.

Operational and reporting structure

Storebrands reporting structure deviates somewhat from the legal structure. The main lines in the reporting structure are shown below. In the legal structure SPP Livförsäkring is a subsidiary under Storebrand Livsforsikring AS.

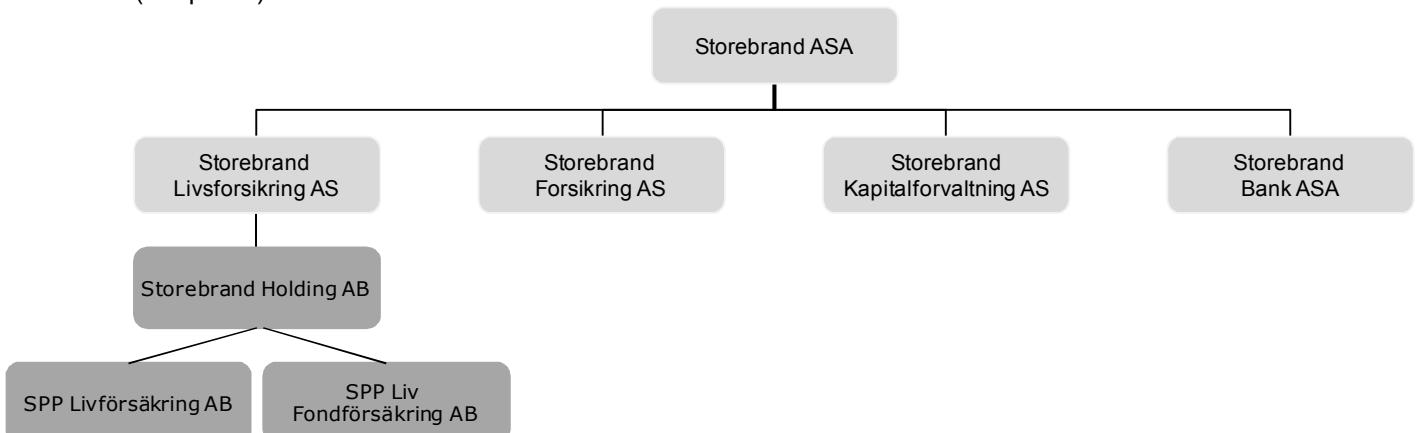

This document provides the latest available reported figures for the Storebrand Group. It is structured according to the operating structure shown below, and each business unit is divided into sections for result, balance sheet and operations.

¹⁾) In previous quarters, Storebrand has included accounting equity for the Swedish activity as a basis for calculating solvency and capital adequacy. As of the second quarter of 2012, Storebrand has changed the method by including solvency capital, which is calculated pursuant to Swedish capital adequacy rules, in the calculation of the consolidated solvency margin and consolidated capital adequacy. The Swedish subsidiary SPP AB has previously used a 10-year interest rate curve (government interest rate and housing interest rate) for the discounting of insurance obligations. SPP has used a 30-year yield curve as a basis from the second quarter of 2012.

In connection with Storebrand Life Insurance's 2007 acquisition of SPP, the Financial Supervisory Authority of Norway placed a condition on its approval by giving a time limited approval to include parts of the conditional bonus as primary capital. This approval ends on 1.4.2012.

The key figures for capital adequacy and solvency for previous periods have not been restated. They are shown in the tables above such as they were originally calculated.

²⁾) Consists of equity, subordinated loan capital, market value adjustment reserve, risk equalisation fund, unrealised gains, bonds at amortised cost, additional statutory reserves, conditional bonus and accrued profit.

³⁾) Consists of the company SPP Livförsäkring AB due to changes in the company structure of SPP Livförsäkring Group. Previous quarters are accordingly revised.

⁴⁾) Costs and AuM are 12 month rolling figures. Previous quarters are revised. AuM = Assets under Management (total assets under management), bp = basis points.

⁵⁾) Consists of the companies Storebrand Bank ASA and Storebrand Boligkredit AS

Shareholder structure

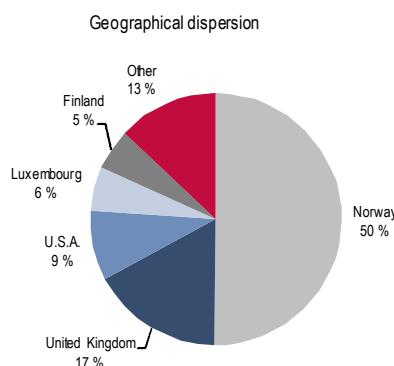

Shares in Storebrand ASA are quoted on the Oslo Stock Exchange (OSE) with the ticker code STB. Storebrand ASA share capital at the start of 2012 was NOK 2 249.5 million. There are 449 909 891 shares with a par value of NOK 5.

As of 31.12.2012 the shareholder structure as registered with the VPS (The Norwegian Central Securities Depository) was as follows:

Shareholder structure

Sensitivities SPP guaranteed portfolio

The sensitivities shown below are based on internal risk modeling. The sensitivities are a point in time estimate on the risk associated with market movements in the disclosed markets factors. Important assumptions behind the sensitivities are amongst others instantaneous change in the disclosed market factors and change in one market factor at a time.

The financial result may vary significantly from what the sensitivities indicate throughout a period based on amongst others: management action based on market movements throughout the period, several market factors moving simultaneously and indexes not giving a precise approximation of actual investment portfolio. For example the credit portfolio is constructed to be robust versus the liabilities and has a low correlation to ITRAXX.
